

THIS WEEK IN

Week Nov. 14-18

SECOND GRADE

Reminders

- We have quite a few students who have either broken or are missing their headphones. Please talk with your child about being responsible with their headphones. If possible, please send your student in with a pair if they do not have any. We use them everyday! If anyone would like to donate an extra pair, that would be helpful. I appreciate your support.
- Helpful tip: Please look through your child's backpack daily.

Notes from Teacher

We have been busy learning all about 6 different text features. Ask your child about them and to show you our hand motions. We also just got a new math program called Reflex. Students can log onto this program at home and practice their math facts.

-Mrs. Langtry

Important Events
